

February 6th and 27th, 2016

Boarders' Trip to Mysore

On the 6th & 27th of February, our boarders went on a day trip to Mysore. The first stop was at Rangathittu bird sanctuary, where the students got to view first hand the beautiful winged creatures from all species around the world in their natural habitats, which are created by them for different times during the year. They got very close up to their living spaces as they were taken in batches for a memorable boat ride which was truly a life time experience where they watched the birds' eating and hunting habits. Then we moved on to the Tippu's summer palace and the gardens, where once again, color, beauty & architecture draped rich in history and culture was on view for the students.
