Boarders' Trip to Shimoga

On the 5th of February a group of boarders embarked on a trip to Shimoga. Among the many places that they visited, the trip to the Abbey Falls was a highlight. It is a breathtaking waterfall where the Cauvery river cascades down a rock face from a height of 70 feet. They also visited the Royal Tombs which is tucked away between private coffee and spice estates after lunch. This was followed by a visit to the Omkareshwara Temple at Madikeri, and the Raja Seat, the spot from which kings of yore watched sunsets with their consorts. It is considered one of the most scenic locations in South India. The boarders also visited the island of Cauvery Nisargadhama and the Tibetan Colony.
